

WINDKRAFT SIMONSFELD RO SRL is a subsidiary of Windkraft Simonsfeld AG, one of the largest wind power producers in Austria. As an innovative and growth-oriented company, we operate in the future market of renewable energies. We develop and operate wind energy and photovoltaic systems in Austria as well as in selected European markets.

We are expanding our team in Reșița/Timisoara and are looking for a

Project Manager Wind Energy (m/f/d) **with leadership responsibility**

Your tasks:

- Leadership and guidance of a small team
- Management of projects in the field of wind power
- Handling the approval process including the power connection for our wind power projects
- Coordination with municipalities and authorities
- Communication with internal and external project partners and stakeholders
- Coordination of experts and service providers
- Project coordination and task distribution within the team
- Tracking and documentation of project goals and milestones

Your profile:

- Completed technical or commercial higher education
- Min. 5 years of relevant professional experience in the energy sector in Romania, preferably in the field of renewable energies
- Strong existing network in the energy sector, including Regulatory Authority, TSO, Energy Distribution Companies, etc.
- Experience with approval processes for power plant projects, including power connection
- Profound project management skills
- Very good language skills in English
- High degree of self-organization and self-motivation

For this key position, we are looking for a project manager with strong leadership skills who is enthusiastic about driving the energy transition in Romania. We offer a responsible job with great scope for action in a future-oriented market.
